

EDIT Value

Pilot Phase in the Czech Republic (SME 2)

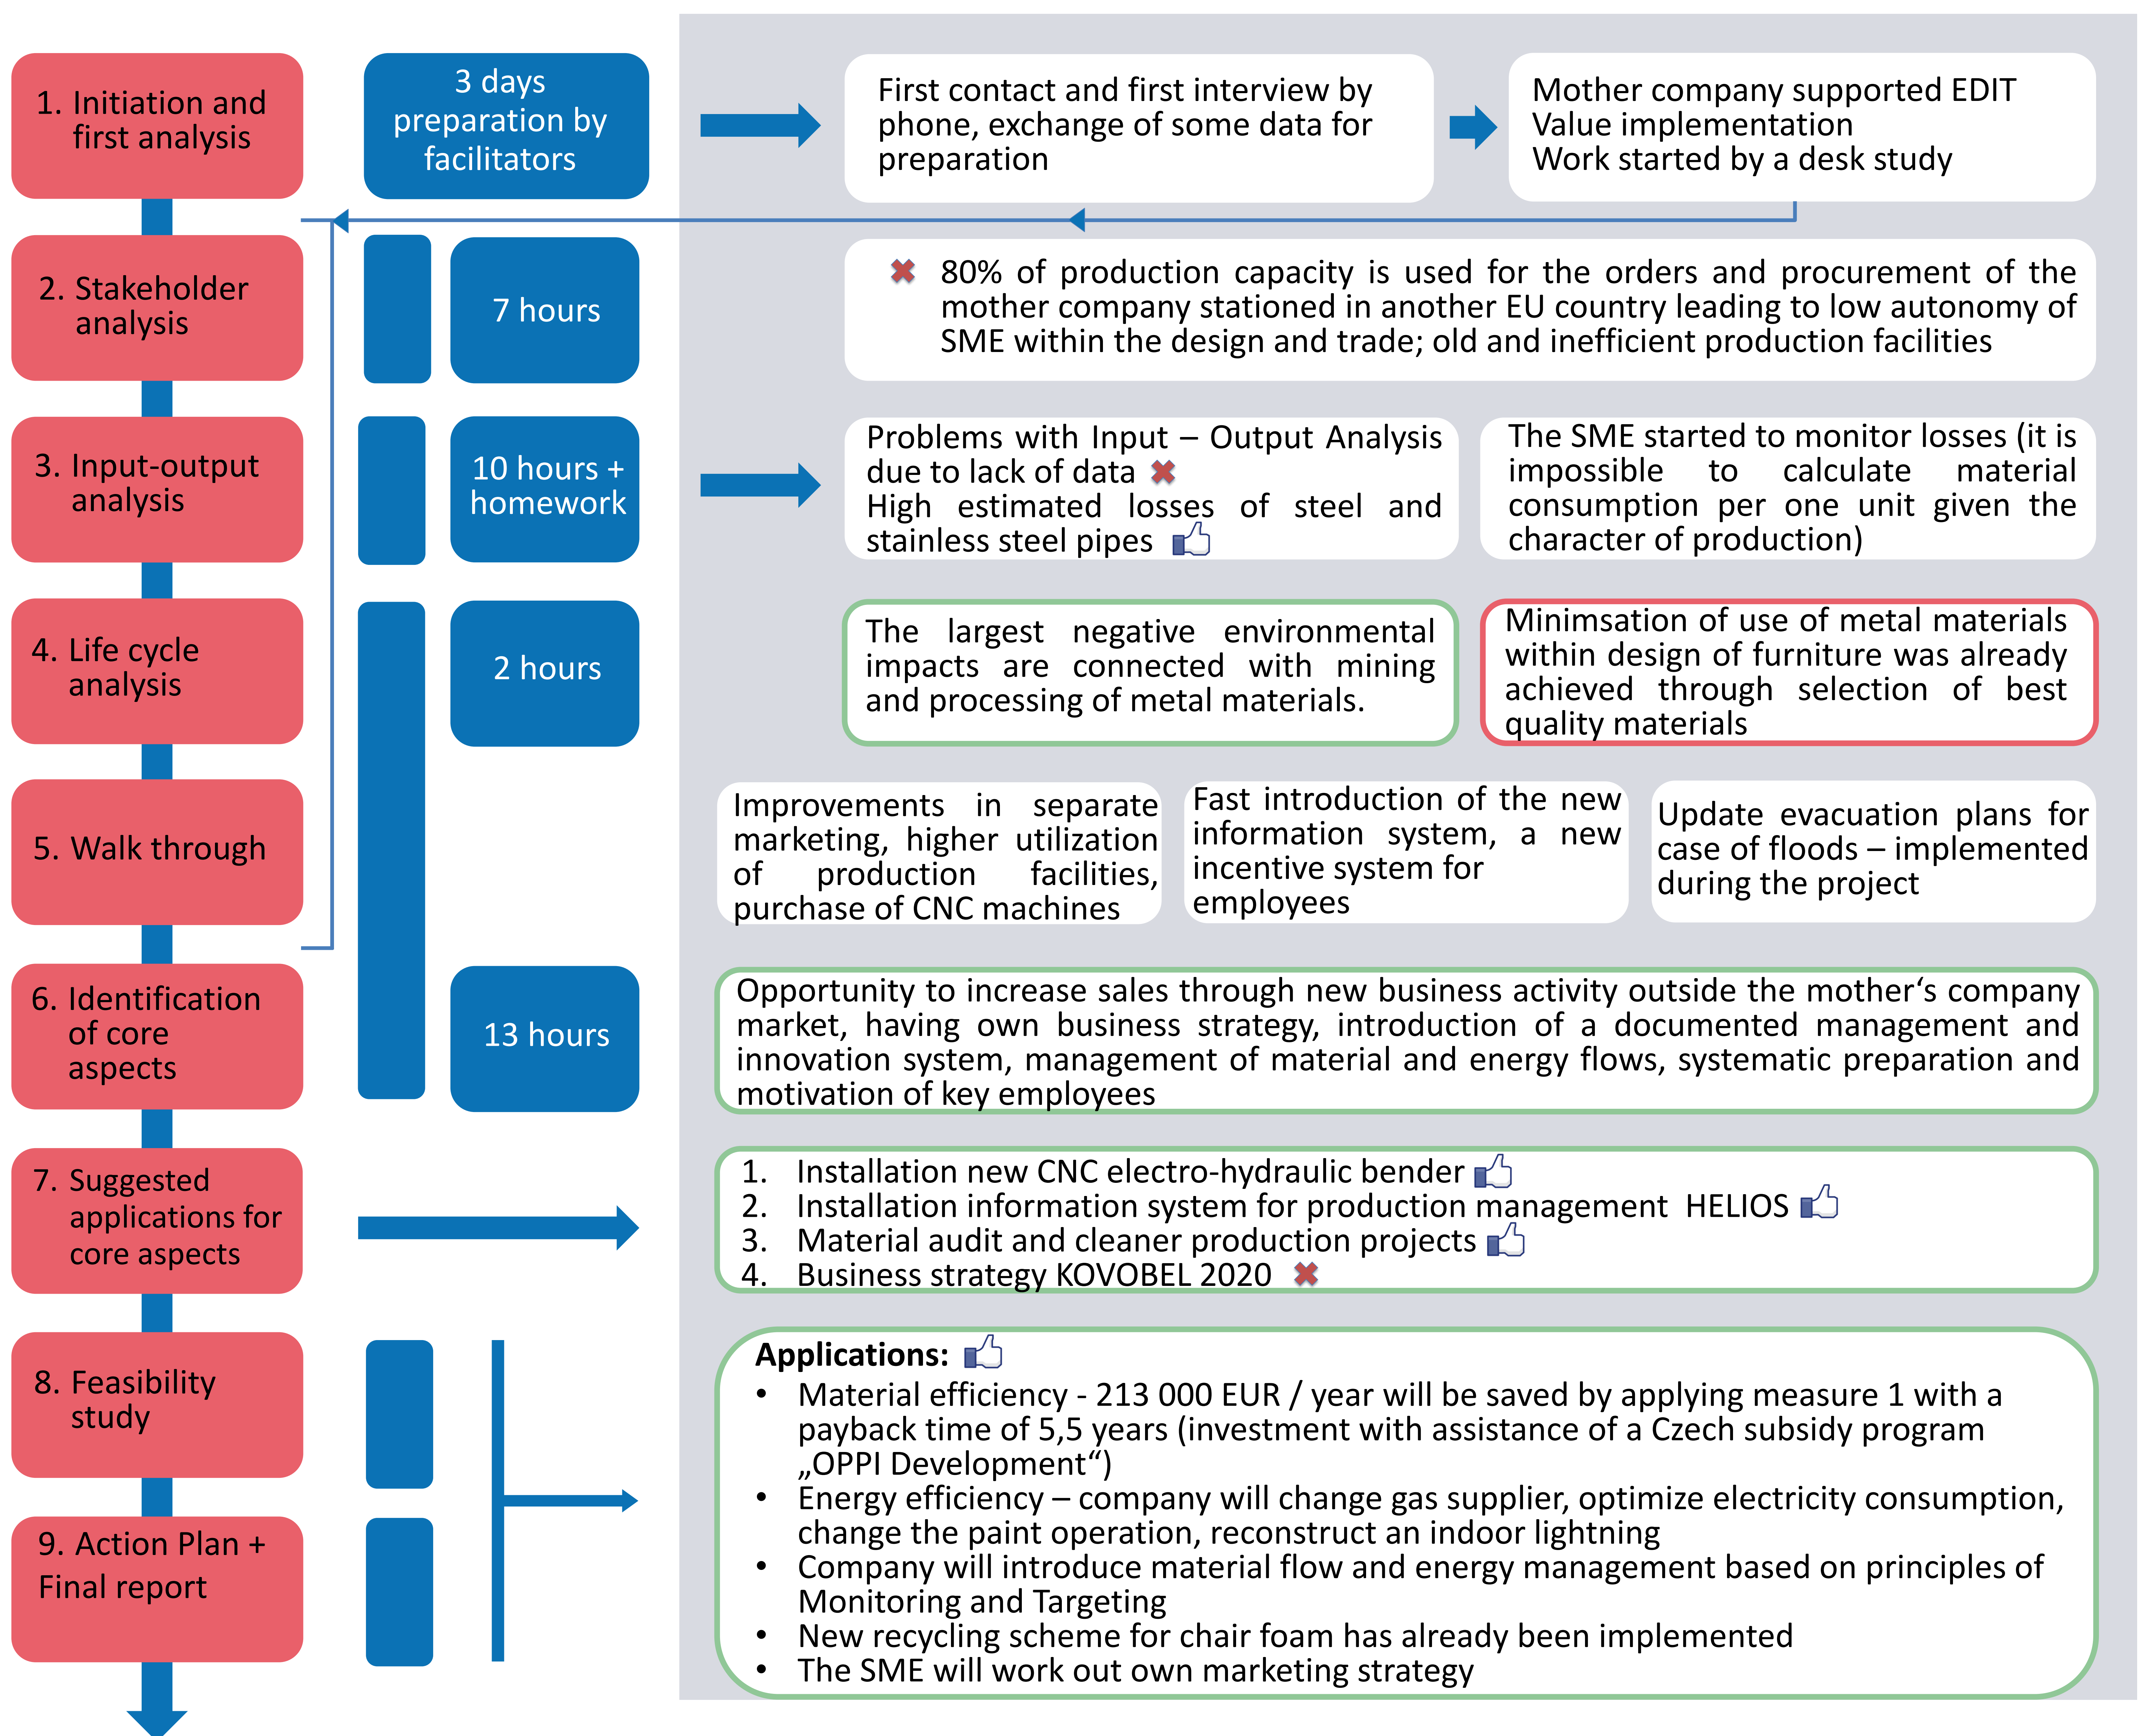

Sector: Furniture industry

Size: 50 employees

Products: Metal and upholstered furniture

Annual Turnover: 2 Mio EUR

- The EDIT Value piloting took place from April to July 2014
- Two facilitators (ENVIROS Prague) and two senior executives were involved in the EDIT Value process.
- „We were not thinking about resource efficiency before, however, we recognised its importance for our company after application of the EDIT tool“ - CEO of the SME at the final meeting

Lessons learnt

- Company appreciated an independent view on its performance and would be ready to implement EDIT on a semi-commercial basis
- Reduce the number of core applications to 10 and add their detailed descriptions; add applications for product innovation and marketing
- Better methodically describe the transition between analysis and applications; work out SW version of methodology
- Consider dividing EDIT Tool methodology to freely accessible part of which companies own processes (analysis) and commercial part of the network of experts (applications)
